NEW CARHARTT WORK BOOTS BUILT FROM THE GROUND UP

TO TAKE DOWN ANY WORK DAY

The boots built from the ground up: Carhartt durability, quality and craftsmanship translates directly to our line of work boots, built to keep you dry, comfortable and safe during your workday.

S3

Carhartt safety shoes are of the protection class S3; offering stability, comfort, and lightweight flexibility to all craftsmen. In compliance with the requirements of the EU standard, EN ISO 20345:2012, the S3 shoe offers a fiber glass toe cap that protect against falling objects and the indentation resistance is at least 200 Joules. The S3 shoe also has antistatic properties, increased resistance of water, non-slip Vibram® sole, and anti-perforation that protects the soles of the feet from sharp objects.

FT

Identifies protection against impact and compression hazards with a fiber glass toe, taking up to 200 joules of force. The lightest toe cap with an ergonomic shape specially designed to adapt to any type of foot, this will ensure comfort and a high precision fit. The Fiber Glass Toe meets EN ISO 20345:2012 standards.

These shoes are designed to be completely waterproof and to keep your feet dry in most types of wet conditions. A waterproof and breathable membrane is used to keep you feet dry and warm while wicking moisture away from the foot and promoting air flow and circulation.

Rugged Flex® gear meets Carhartt's defined standards for stretch and recovery to give you extra range of motion so you can move and work easily in Rugged Flex shoes.

The Scuff cap offers more durability to a popular wear point on the shoe. It provides long term protection to your shoes without adding extra weight.

Performance shank provides extra stability.

These shoes are designed with lightest weight materials, to provide a lightweight fit to help keep you strong throughout your work day.

The Gzero textile plate has anti perforation properties which protects against penetration of sharp objects.

Vibram® outsole provides performance with a non-slip antistatic compact polyurethane sole for the intended work and environment. The outsole also has resistance to heat, abrasion, oil and ammonia.

	CM	91	94	97	99	102	105	109	113	118

- For Outerwear, Bibs, and Tops: If you prefer a slimmer fit or are between sizes, try sizing down.
- For Bottoms: If your measurement falls between sizes, buy the larger size.

HOW TO MEASURE

Bust:
Measure the fullest part of your bust, keeping the measuring tape parallel to the floor.

Natural Waist:
Bend side to side and find the natural bend in your body; this is your natural waist. **Note:** It may not be the smallest point.

Hips:
Measure the fullest part of your hips, approximately 8" below the natural waist.

Inseam:
Measure from your crotch down to the desired length on body. You may also measure pants that you currently own and like. Lay the garment flat and smooth out. To get the inseam length, measure on the front from the crotch point, along the seam, to the hem.

For best results, measure over your undergarments.

WOMEN'S SOCK CONVERSION CHART

SHOE SIZE			SUGGESTED SIZE
US	EUROPE	UK	
3.5	35	2,5	7-9 (SMALL)
4,5	36	3,5	
5	37	4

8,5	41	7,5	
9	42	8	

PANTS INSEAM LENGTH CHART

Regular
Inseam Measurement: 31"-32"

WOMEN'S TOPS FIT

Relaxed Fit	Original Fit
Slightly loose for a comfortable fit	Roomy for a comfortable fit
Subtle shape for range of motion	Allows for maximum range of movement

WOMEN'S PANTS FIT

Fitted	Original Fit
Mid-rise sits just below the waist	Mid-rise sits just below the waist
Closest fit through hip and thigh	Easy fit through the hip and thigh
Close to the body, but never too tight for work	A classic look you can wear anywhere and everywhere

BIB OVERALL (UNLINED)

STYLE #: 102438

- Size to the largest part of your body
- Reference the inseam length chart and body measurement chart for guidance
- Measurements assume bib overall is worn with a shirt and undergarments. If you plan to layer over pants, you may need to size up.

CARHARTT MEN'S SIZE CHART
BODY MEASUREMENTS

Measure your body and order correct size

HOW TO MEASURE
For best results, measure over your undergarments.

Chest
Measure fullest part of your chest, keeping the tape level to the floor.

Waist
Measure your natural waist where your torso is the smallest.

Hips
Stand with heels together and measure the fullest part of your hips (approximately 8" below the natural waist).

Inseam
Measure pants that fit you well. Lay them flat, with the front and back creased smooth. Measure along the inseam from crotch to bottom of leg hem. Or, if you don't have pants that fit comfortably, measure from your crotch to your desired pants length.

TECHNOLOGIES

This technology wicks moisture away from the body to the outside of the garment. Next to this sweat wicking feature, extra features specified per Carhartt Force® could be: • Stain Breaker® technology releases stains • Anti odor • FastDry® faster drying • Carhartt Force® is a technology, not a fabric.

Force Extremes® is our lightest-weight, fastest-drying, odor-fighting gear. It's powered by 37.5® Technology, which is scientifically proven to give you more stamina. Force Extremes® keeps you dry and comfortable so you can end the day as strong as you started.

A durable water repellent finish to let water slide off the surface of a garment.

Waterproof breathable protection.

A technology to keep you extra warm when it's cold outside. The microfibers in the insulation capture air in the material so that there is more space between the outside and the body. Thereby, the body is better protected against cold outside air. 3M and Thinsulate are trademarks of 3M

A finish that allows stains to wash out easily.

FastDry® wicks away sweat and moisture from the fabric to help promote faster drying.

Wind Fighter™ is a technology that prevents wind from blasting through the fabric and reaching your skin.

Rugged Flex® gear meets Carhartt’s defined standards for stretch and recovery to give you extra range of motion so you can move and work easily in Rugged Flex garments.

Full Swing™ products include Rugged Flex® technology and engineered design to provide an improved range of motion without the bulk and weight.

DISCLAIMER
Our aim is to serve and protect hardworking men. Every attempt has been made to ensure accuracy of the product descriptions/colors in this catalogue at the time of printing. Our products shown in this catalogue are represented as accurately as possible, however we reserve the right to change product specifications or colors without previous notification.

WATERPROOF RATING (MM)	RESISTANCE PROVIDED	CONDITIONS
0-5,000 MM	NO RESISTANCE TO SOME RESISTANCE TO MOISTURE.	LIGHT RAIN, DRY SNOW, NO PRESSURE.
6,000-10,000 MM	RAINPROOF AND WATERPROOF UNDER LIGHT PRESSURE.	LIGHT RAIN, AVERAGE SNOW, LIGHT PRESSURE.
11,000-15,000 MM	RAINPROOF AND WATERPROOF EXCEPT UNDER HIGH PRESSURE.	MODERATE RAIN, AVERAGE SNOW, LIGHT PRESSURE.
16,000-20,000 MM	RAINPROOF AND WATERPROOF UNDER HIGH PRESSURE.	HEAVY RAIN, WET SNOW, SOME PRESSURE.
20,000 MM +	RAINPROOF AND WATERPROOF UNDER HIGH PRESSURE.	HEAVY RAIN, WET SNOW, HIGH PRESSURE.

SHELL FABRIC

Firm Duck
12-ounce/407-gram, 100% ring-spun cotton duck made with plied (double) yarns for extra durability. Rigid and stiff feeling material that will break in over time. Garment can fade during washing.

Sandstone Duck
12-ounce/407-gram, 100% cotton duck made with plied (double) yarns. Microsanded and garment-washed for softer and “broken-in” feeling. Garment can fade during washing

Waterproof Breathable
100% nylon with waterproof breathable laminate and sealed seams. Durable water repellency with breathability to manage body temperature.

Ripstop
9.25-ounce/314-gram or 7-ounce/237-gram, 100% cotton ripstop. Garment washed. Special reinforcing technique to prevent tearing and ripping.

Quick Duck®
8.5-ounce/288-gram, 60% cotton/40% polyester canvas with Durable Water Repellent (DWR) finish. 30% lighter and ounce-for-ounce as durable as sandstone.

Rockford Nylon
4,25-ounce/144-gram, 100% nylon oxford with durable water resistance.

Denim
11.75-ounce/102 gram, 100% ring-spun cotton denim. Garment can fade during washing. Therefore, wash jeans inside-out to avoid fade and prevent the formation of white marks on wrinkles.

LINING GUIDE

Mesh Lining
Lightweight 100% polyester mesh.

Nylon Quilt Lining
Nylon taffeta quilted to lightweight polyester fill.

Blanket Lining
Blended acrylic and polyester in stripes or plaid.

Quilted Flannel Lining
Brushed polyester tricot quilted to midweight polyester batting.

Sherpa Lining
82% polyester and 18% acrylic high loft fleece.
